OPHIR PROPERTY IS UNDER BOND

Western Exploration Company Becomes Clark's Neighbor.

DEVELOPING THE BUCKHORN

EXCHANGE TO TAKE ACTION ON UNITED SHARES.

about one month ago, it was only yesterday that Manager Snyder Western Exploration company released the information that his company had invaded the camp of Ophir,

in Tooele county, by bonding the old Buckhorn group of claims. At the time mentioned other parties had a bond on the group from the St. Louis crowd that owns it, and their contract was purchased by the Western Exploration company. Superintendent Raddatz of the Honerine was instructed to put a few men at work on the property, and development has been under way ever since. Today Manager Snyder will visit the property, and more than likely order the force

and more than likely order the force increased, as the showing is said to fully warrant it.

The claims, some ten or twelve in number, adjoin Senator Clark's Ophir Hill bonanza, and everything turning out as reports indicate the ground ought to, the Exploration company will soon boast of another big mine not far from its Honerine.

MUST LIST THEIR STOCKS.

Companies Whose Shares Are Tradeo in an Open Board Under Fire.

After the acceptance of the fees from the Wabash company yesterday, and the installation of the company's name among the "unlisted" stocks of the exchange, the listing committee of that organization discussed the question of what should be done with the stocks still being dealt in on the open board. Chairman Andrew said his committee felt that the companies whose whose felt that the companies whose shares were not recognized ought to follow the example set by the Wabash and contribute their mite toward the main-

tenance of the stock exchange.
"The fees charged by the exchange are not at all burdensome," said Mr. Andrew, "and whether a property is indrew, "and whether a property is sted as a prospect or a mine, makes title or no difference. In either case t becomes a permanent member of the ist; if entered in the former it can be ransferred to the latter when it be-omes eligible under the rules, without As matters are at present, ange officials are compelled a record of the transactions me the 'curb' stocks, so-called, and in a mner create a markét for them, hout any remuneration, or even the al support of the companies inter-

We have taken no action in the matter as yet, but I expect to see the question presented to the governing board very soon, and in such companies s the Daly-Judge, Comstock, New ork, D. & M. and others whose shares re traded in do not come to the front, is has the Wabash, I am quite sure meeting will be done to prevent their share traded in the come to prevent their share traded in the companion of the companion to the companion traded in the companion traded ling traded in on the open board or nywhere else by members of the ex-nange. If the managements of the empanies could be made to view the atter in the right light, however, m confident that no such action as ave outlined would be necessary."

Snake Creek Property That Has the

Making of a Mine. tain George T. Bridges, the known Tintic operator, has re-d from an inspection of the Golarned from an inspection of the Gol-sen King Mining company's property i the Snake Creek district, south of ark City. He was accompanied by it. R. Evans, president of the company, tho showed him all over the ground and gave him a most thorough insight and the characteristics of that end of

Captain Bridges believes the Golden King has the making of a big bonanza. The property is located about 4,500 feet southwest of the Jones bonanza, one of the Daly-Judge's choice pieces of mineral ground, and while it lies in the granite, formation it is traversed by mineral ground, and while it lies in the transite formation, it is traversed by one of the strongest true fissures veins a the country. The tunnel, Captain Stidges says, has followed the vein ino the hill for a distance of 185 feet, while a shaft has been sunk at the nouth of the tunnel forty-five feet. The ledge is from four and one-half of five feet' wide, between walls, the perfect matrix being filled with quartz, orphyry and from. There is a streak of ore six to eight inches wide that says well in gold, with some silver

assays well in gold, with some silver ind lead, in addition. The croppings of the veln stand out boldly for a disace of 4,500 feet and the captain is aguine that with money to open the operty up it could be made a first-ass producer in a short time.

The captain says the Western Moni-or company is pushing developments in its property. Recently a small treak of galena was encountered in a cross-fissure and everything indicates hat a mine will be found in the company's ground.

NICE SHOWING IN GOLD WIIG

Bottom of Shaft in This New Property Is All in Ore.

T. B. Joseph, who owns a two-thirds nterest in the Gold Mug group of laims, forty-four miles south of this ity and only a few miles from Provo, eturned from that most promising operty last evening. During his ab-nce he put a force of men at work d was well pleased with the showing ade at the time he left camp.

nade at the time he left camp.
Assays from rock taken from five eet below the surface have given reurns of \$39 in gold per ton, while specinens secured on this trip show up well n free gold, small pleces of quartz dislosing all the way from three to thirty articles of the yellow metal. The ntire bottom of the shaft is now fine, the most of which, of course, is ow grade, but the high-grade rock which is scattered through it is being eparated and sacked for shipment. parated and sacked for shipment ite a little of it, Mr. Joseph is satis-i, will go better than \$40 per ton, while a great deal more will prove a sirable quality for leaching.

Fred A. Flindt returned yesterday rom a several days' inspection of the ark Valley district. He was most avorably impressed and declared it as a wonder to him that capital had of jumped in there long ago.

"It would be hard to find a district," id he, "where the ledges are more linly delineated or where the smooth wings are better."

I believe the district has a bright fubelieve the Lastret has ame, and with mother producer like the Century has reveloped, nothing can hold it back."

Ore and Bullion. Ore and bullion settlements in this city vesterday, as reported by McCornick & Co., amounted to \$111,200, as follows: Sil-ver, lead, gold and copper ores, \$42,000; base bullion, \$44,000; gold bars, \$25,000.

Metal Market.

Silver, 51%c per ounce.
Copper, 11%c per pound; New York,

Lead, \$3.50 per 100 pounds; New York,
\$4,12%.

MINING STOCK EXCHANGE.

Wabash Was Placed in the Exchange
List at Afternoon Call.

No startling changes were rung on the mining exchange sesterday, although prices were uniformly strong. During the two regular and open board calls \$6.005 shares were sold for \$46,822.33. The management of the Wabash paid its fee during the forenoon, and the shares found a permanent abiding place in the regular call list of the exchange, the first call being at the afternoon session, when it sold at \$2.30 and closed at \$2.25 bid, \$2.31 asked.

Alax. with good reports from the mine, obened at \$60 and sold up to \$3%c at the afternoon call.

Yankee moved up and closed strong on the regular call st 70e, bringing 5c more during the open call, with the talent predicting still further advances.

it sold at \$2.30 and closed at \$2.50 and \$2.51 asked.

Alax, with good reports from the mine, opened at 46c and sold up to 43½c at the afternoon call.

Yankee moved up and closed strong on the regular call at 70c, bringing 5c more during the open call, with the talent predicting still further advances.

California was hardly as strong as on the day previous, while Century continued very strong at \$1.25½ to \$1.27. May Day was also stronger, going at 23½c to 24c.

Among the big boys. Daly-West led.
It sold at \$51.70 to \$61.90, while Daly-Judge, on the open board, brought \$11.90 and \$12.
The balance of the list held up well, and the day closed on the following record of final quotations and sales:

Mining Notes. George Wilson goes to Bingham today to inspect a new strike. Two cars of Highland Boy lead ore reached the market yesterday.

The Lavinia of Alta vesterday reported in the local market with a car of very ples ore.

W. H. Weyher left for Park Valley last evening to inaugurate a new campaign of development at the Planetary property. He expects to be away until about the first of the coming month. about the first of the coming month.

The final payment on the purchase price of the Galena King group at Stockton has been made by Captain Duncan McVichle and his Wisconsin associates to Colonel W. E. Dorsev and R. C. Gemmell. It amounted to \$45,000.

President John Dern of the Consolidated Mercur and Will S. Brown of Fremont. Neb., returned to the city Monday night from a trip to Oregon and Idaho, where they had been to inspect some properties in which they are interested.

ested.

J. W. Ball. the old secretary of the Maiestic company, came up from Frisco on
Monday. While the offices of the company have been removed to this city and
the secretaryship awarded to Joseph
Henshaw. Mr. Ball will continue to serve
the company on the mine end of the line.
He expects to return to Frisco tomorrow evening.

row evening.

John R. Barnes. Lester Freed and T. E. Newman, the committee of Wabash stockholders appointed to audit the books of the company, completed their labors yesterday and reported that they found them to agree in every particular with the reports as submitted by the secretary and treasurer at the annual meeting on Monday.

Colonel Matt A. Dougherty, vice presi-

New York, Sept. 16.—The tension of the meney market was somewhat relieved today and stocks responded with a strategling recovery, but the repressive effects of the money situation were demonstrated by the subsidence of activity in the market, sales falling below half a million shares for the first time in several weeks. Late yesterday it became known that \$2,500,000 in gold in transit from South Africa to London had been accured for New York. This failed to reassure sentiment immediately and prices of stocks declined during the morning. St. Paul, Louisville & Nashville, Reading, Norfolk & Western and Wabash fell a point or over when an opening rate of 13 per cent was renorted. A relapse to 10 per cent was followed by a rally and the rate fell to 6 per cent in the afternoon. Recoveries were general and the Gould group, the Wisconsin Central stocks, Amalgamated Copper and some of the independent steel companies were notably strong. The report of an additional shipment of \$1,250,000 in gold from Australia, of \$1,000,000 from London tomorrow and of the arrival at San Francisco today of a \$760,000 installment helped to reassure sentiment.

There was a prompt recovery in stering exchange in response to the gold engagement, and discount rates hardened in London and Berlin, following yesterday's leading by Paris. Further gold imports were thereby rendered unprofitable. The conviction grows that the great foreign reserve banks are well equipped to meet the demand. The gold in the Same time, but its discounts and advances are \$1,250,000 less. The imperial Bank of Germany has over \$12,00,000 gold more than a year ago, while its discounts and advances and year ago, while its discounts and advances are share been reduced about \$50,000,000 and its note circulation is also slightly less. The presentation of checks to the subtreasury for the anticipated government bonds, it is evident that none of these have been reduced about \$50,000,000 and its note circulation is also slightly less. The presentation of checks to the subtrea ing on Monday.

Colonel Matt A. Dougherty, vice president and general manager of the Spring Valley Oil & Pipe Line company, which owns valuable oil lands north and east of Aspen mountain, where the recent strikes have been made, will leave for camp tonight. He goes to look over the field and decide upon the point at which the first well will be put down. He will be gone three or four days.

In naming the officials of the Wahash be gone three or four days.

In naming the officials of the Wabash company yesterday The Herald credited W. Mont Ferry with the vice presidency, when in reality S. H. Lewis was named for that position. Mr. Lewis is a most enthusiastic member of the new board, a heavy shareholder and in every way worthy of the honor of the position. Mr. Ferry was elected treasurer, a position which he held during the first year of the company's career in conjunction with the vice presidency.

H. L. J. Warren, who has not been in U. S. new 4s advanced 1/2 and the old 5s % per cent on the last call.

day, and back again yesterday. It is now listed. This will make fictitious selling more difficult. Daly-Judge, New York and Comstock should be listed. California is firm; Century is advancing. I think New York a good buy.

Minister of Marine.

PREMIER MUCH PUT OUT

RUFFLED FEATHERS WILL NOW HAVE TO BE MADE SMOOTH.

GRAIN AND PROVISIONS.

Chicago, Sept. 16.—Wheat started out weak on cables that did not respond to yesterday's local advance, and on the warm weather and prospects of better northwestern receipts. The weather in particular was bearish, in that it favored a good movement of spring wheat. Offerings, however, were light. Trade at times was very slow, but long holders sold a great deal of stuff, and it was in turn cumped. This weakened the market still further. There was a good cash demand; rains were predicted and the estimated receipts for tomorrow were much curtailed from the receipts today. This stopped selling in the late deliveries, and to aid in the check came the advice that the northwest did not intend selling much stuff. Trade was not large in the aggregate, and the late scattering purchases helped matters. There was still some fear over the results of the decision in the oats injunction cases, and long September wheat came out. September closed weak, %c off at 17%c. December sold from 8%c to 68%c, advanced to 6%c and closed easy, %c lower, at 6%c.

Damage fear was practically the only buillish feature of the corfi market, for receipts were improved, the weather was favorable to movement of the crop, and the cables were indifferent. Offerings were light until late in the session, when there was a drive in September, which pressed prices down. September closed weak, %c off, at 33%c. December closed weak, %c off, at 33%c. December closed weak, %c off, at 33%c. December closed weaker, %f of f, at 36.

Provisions were only fairly active at times. Hogs ruled lower at the stock yards and influenced products bearishly. January pork closed 17½c lower.

The leading futures ranged as follows:

Wheat—No. 2: DARIS, Sept. 16.-The needlessly offensive allusions to Italy, Ger-

day at Bizerta in using insulting lan-guage regarding Germany and Great Britain has increased the annoyance felt against him, and the French foreign office is visibly embarrassed to ex-

taken as strictly personal and as in no way reflecting the general spirit of the French government towards the powers mentioned. He spoke in his capacity as minister of marine and as treating of the defense of the coasts, and not as the mouthpiece of France's

foreign policy."

It has been hinted that M. Delcasse has already protested to Premier Combes against M. Pelletan's Ajaccio

utterances.

The Courier Du Soir says: "It is an open secret that M. Delcasse, the minister of foreign affairs, professes quite a contrary opinion and one too much in conformity with the real situation and the true interest of France to be changed. The majority of the government will certainly adont M. Delcasse." ment will certainly adopt M. Delcasse's

Minister of Marine.

many and Great Britain made by M. Pelletan, the marine minister, in a speech at Ajaccio, Corsica, and yesterday in a speech at Bizerta, have caused much surprise here and are generally deprecated. The only explanation offered by Frenchmen is that M. Pelletan had forgotten that he is now a minister and that he has been speaking as a journalist. The foreign minister, M. Delcasse, is said to have been ex-M. Delcasse, is said to have been ex-tremely vexed at M. Pelletan's utter-ances at Ajaccio, which are calculated to irritate Italy at a moment when the French government had succeeded in dissipating the ill-feeling which existed between the two countries and had es-tablished an era of friendly relations. M. Pelletan chose a very unfortunate moment for his Ajacoto remarks, as it coincides with the telegram of the Count of Turin to the French ambassador at Rome, paying homage to the French soldiers who fell at the battle of Solferino in the Italian cause. M. Pelletan's further blunder yester-

plain it away. An official there this afternoon said:

I Cure Men

With Lame Backs With Weak Nerves With Rheumatism With Lost Vitality

With all those signs which tell man he is breaking down, losing his grip. I have the remedy which gives back that snap, fire and vim of youth. My cures sell my Belt. They prove what I say about it. A man is like a steam engine, It takes steam to make him go. My Belt pumps that steam into him Belt pumps that steam into him.
That's how it makes so many old
men feel young.
Mr. A. Crawford, Pokegama, Ore,
says: "I am 70 years old, but your
Belt has made me feel like 25."
Try it, you weak men; you will
find youth and vigor in it after
everything else falls.

Pay When Cured

I will send you my illustrated book free if you will enclose this ad.

(AUTION Beware of medical concerns offering "Electric Belts Free" and the professor with his cheap Belt. This offer is only a trick to foist a package of medicines upon you C. O. D. Write to me for an explanation of the trick.
